EM5000 Series R65 LED Microbar

EM5000 Series LED microbars provide a compact yet powerful warning solution that offers the flexibility of either permanent to magnetic mount. Features 12-24V operation, uses low maintenance LED technology to maximise light output and offers multiple flash patterns including ECE R65 class I (flash pattern 1 must be selected).

Models

| PART NO. | ILLUMINATION | VOLTAGE | AMPS | MOUNT |
|----------|--------------|---------|------|----------|
| EM5001A | Amber | 12-24 | 3 | 1 Bolt |
| EM5002A | Amber | 12-24 | 3 | Magnetic |

Features and Benefits

- Compact, low profile design
- Eight LED reflector modules, each comprising three LEDs provide high intensity light output
- Cigarette plug with on/off and flash pattern selection switch (magnetic mount only)
- Polycarbonate base & low profile clear lens
- Temperature Range: -20°C to +50°C
