

PRODUCT DATA SHEET

ALUMINIUM RIMS POLISHING

Aluminium rims will sparkle like new after a professional polish. The professional tool set for polishing aluminium rims offers everything you'll need. For larger areas, use the products designed for use with the angle polisher. For more detailed work, additional tools are included with a 6 mm shank. The pastes have been specially formulated for aluminium.

Clean the rim after every polishing stage with a soft damp cloth and a little washing-up liquid. Ensure that pre-polishing paste residues are removed from the rim before starting high-gloss polishing work.

Type designation	ALUMINIUM RIMS POLISHING
Article designation 1	PROFESSIONAL TOOL SET
Article no.	209541
GTIN	4011890090732
Content	1
Content unit	Pack
Weight	1,096 kg
Material suitability	Non-ferrous metals
Machine suitability	Freehand angle grinder Straight grinder Air grinder
Product category number	PK07
Product category text	PW
GTIN barcode packing unit	4011890090732
Type of packaging	Carton
Package length	300 mm
Package width	200 mm
Package height	136 mm
Weight of packing unit	1,096 kg
Customs tariff number	68042218
Country of origin	DE
